

# Reformed Residential Zones for Victoria

On 1 July 2014 the reformed residential zones came into full effect across Victoria.

All residentially zoned land is now included in one of the reformed residential zones and the previous Residential 1, Residential 2 and Residential 3 Zones have been removed from the Victorian planning system.

The new residential zones are:

- the Residential Growth Zone
- the General Residential Zone
- the Neighbourhood Residential Zone.

Key features of the new zones include:

- setting a mandatory building height of eight metres in the Neighbourhood Residential Zone
- improved purpose statements for the zones
- restricting non-residential uses in the Neighbourhood Residential Zone and the General Residential Zone
- allowing small-scale complementary commercial uses in the Residential Growth Zone.

The new residential zones give councils a way to protect neighbourhoods with special character and heritage value from inappropriate development by directing housing growth to areas around main roads, shopping centres and transport hubs.

A number of councils are undertaking additional strategic work to refine the application of the new residential zones.

Contact your council to find out what the new zones mean for your property.

For more information go to [www.dtpli.vic.gov.au/reszones](http://www.dtpli.vic.gov.au/reszones) and [www.planmelbourne.vic.gov.au](http://www.planmelbourne.vic.gov.au)

# REFORMED RESIDENTIAL ZONES FOR VICTORIA
